Mr. Houston:

The policy offered by GEICO should be a good buy for some employees.

BUT The explanation of possible liability is over-simplified and clearly designed as a sales pitch.

The three stated situations where the U.S. Gov't "DOES NOT GENERALLY ACCEPT RESPONSIBILITY"<sup>A</sup> need further explanation. The third (injury to fellow employee) is a particularly specious explanation.

Would recommend an explanation to employees of possible liability and calling their attention to availability of this policy.
